

DETAILED ACTION

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The invention was found to be free of the prior art. The closest prior art, Hu et al. adds the organic solvent at the beginning of the reaction simultaneously with all other reactants and doesn't teach the addition of the organic solvent after the reaction is complete. This is neither suggested nor rendered obvious by Hu et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Leslie S. Szivos on June 17, 2008.

In the Claims:

Claim 1, lines 2-3, after the terms "adding glyphosate and water" insert "without addition of an organic solvent"

Conclusion

Claims 1-12 are allowed.
